

## Metique – Tea Tree Oil Products!

Posted on [January 29, 2012](#) by [Elle](#)  
Again, as a result of yet another superb [Facebook](#) competition (this one has so far broken the record with over 400 entries!) I have been really lucky to try not one, not two, but three marvellous products from the [Metique](#) range! Eeeekkk... I was so excited when I got my parcel as the contents were a surprise. So I tweeted before I opened it up...

Then I discovered my delightful treats inside!

I was treated to a [Skin Wash](#), [Body Lotion](#) and [Tea Tree Oil](#)! Perfect for my acne prone skin.

### Tea Tree Oil Hygienic Skin Wash

I found the [Hygienic Skin Wash](#) to be light and delicate... it didn't dry out my skin and it didn't smell too strong either which was a bonus. I could definitely feel it working on my pores. I have sensitive skin and sometimes a Tea Tree Oil product can be too harsh for me and my skin can go red. This [Skin Wash](#) seemed to work really well for my skin. This is a non-foaming sulphate free [Tea Tree Oil Skin Wash](#), formulated with natural vitamin E and 5% Australian tea tree oil that helps cleanse blocked pores and kill bacteria without drying the skin.

It's a great gentle head to toe daily skin wash, ideal for all the family and in particular for those with sensitive, dry, teenage or spot prone skin.

This antiseptic, antibacterial hand, body and face wash has been scientifically formulated without sulphates, which can irritate and dry out the skin when used frequently.

Formulated with 5% tea tree oil... this wash will kill disease causing micro-organisms on the skin, whilst maintaining the skins own natural immune system and moisture level. Wahhooo... sounds good to me!

METIQUE® - the Specialists in Tea Tree Oil Products

## Next up was the 10% Blended Tea Tree Oil

Providing the powerful qualities of *Melaleuca Alternifolia* otherwise known as Tea Tree Oil, this [10% Blended Tea Tree Oil](#) is formulated with Aloe Vera, Vitamin E, Vitamin C and Grape Seed Procyanidins. This is a powerful blend of antiseptic properties and antioxidants in a bottle, and is gentle on the skin and has the benefits of being water soluble. It can be used directly on spots, bumps, boils, bites, blemishes, stings, scratches and grazes as a natural healing aid, a real Hero product in the Metique range! I used it on my blemishes and found that it did the job without peeling my sensitive skin. If you suffer with acne, blemishes or general spots then you might know how frustrating it is trying to treat problem areas on your chest/back.

[Tea Tree Oil Hand & Body Lotion](#) The [Hand and Body Antiseptic Lotion](#) was really nice to use on my back and again, it didn't dry my skin out at all and left it feeling soft and moisturised. I also used it on my legs and arms where I sometimes suffer with eczema if I'm a bit stressed. I'll be taking this on holiday with me next month to use before going to bed on an evening to make sure my skin is cared for after being in the sun! Metique Tea Tree Oil Hand and Body lotion is enriched with 1% Tea Tree Oil and Vitamin E providing an immediate soothing and cooling effect to the skin. The Skin will feel softer, smoother and moisturised. This Lotion can be used by all the family and children and will moisturise and nourish the skin while maintaining the skins natural, healthy balance. Excellent for dry skin conditions such as eczema, psoriasis, dry/cracked heels and irritated skin. Research shows that 1% Australian Tea Tree Oil is ample to help treat these skin conditions and is extra nourishing with the added benefit of Aloe Vera.
