

Metique Skin Wash Review

So for my first review of 2012, I want to start the new year off with a clean and fresh start so this product is really quite fitting.

Metique Skin Wash and Hand & Body Lotion

I was given the opportunity to trial this product as I am always open to trying new products I may not have tried otherwise.

It comes beautifully packaged and their attention to detail is fantastic.

Metique uses tea tree oil in all of its products as it boasts a natural way to kill bacteria without disrupting the resident flora on the skin.

I do like tea tree oil I have a few products with it in and most of you will get it to help reduce the appearance of spots.

Metique Skin Wash

So the skin wash I received was 2% it is an all over body wash so the first place I decided to use it was my face.

Pro's

- It didn't dry my skin out at all, I would use it again on my face especially as a cleanser type product.
- My husband used it for shaving and was very pleased.
- Great as a hand wash by the sink - my hands tend to dry out with soap products this left my hands feeling more nourished

Cons

- The smell of tea tree is quite potent and I could smell it for a good few hours after using.

Metique Hand & Body Lotion

Moisturiser is important to me - this I found to not quite tick all of my boxes BUT my husband absolutely adores it and has taken the packets from me!

When applying the moisturiser I again found that the smell of tea tree was potent (it is a tea tree product so this would be expected) it went on thinly without leaving my hands feeling greasy or uncomfortable. It could do with being just a little bit more nourishing for me personally. But as I said my husband loves it.

I would defiantly buy the skin wash again, its so versatile. <http://www.teatreeoilproducts.co.uk>

The Hand & Body lotion is £10.71 for 250ml

The Antiseptic Skin Wash is £9.18 for 250ml

The price points are standard for the wash,

I would spend this on a good cleanser and know it would last me a fair amount of time making the cost per use quite low.

As for the lotion I used to spend this on other brands without questioning it so again not a bad price for the product.

Have you tried any of Metique's collection?

How did you find it? Aimee xx
