

## Metique Product Review Emma Woolf Monday, 13<sup>th</sup> June 2013

### Metique teatree oil review by Emma Woolf

I discovered Metique's amazing skin care range last summer, during the London Olympics. Remember that thing in the sky, that golden globe we saw for a few weeks last summer? Well, I spent a long, hot day at the Games and got horribly sunburned... I also happened to be writing reviews of beauty products for The Sun at the time, and when Metique landed on my desk, it was my salvation. The Antiseptic Hand & Body Lotion soothed the worst of the sunburn and I've been using it ever since, rain or shine. I've always had sensitive skin, but I like to feel my skin care is 'working' – Metique's combination of gentle yet effective is ideal. And it comes in handy travel-sized sachets for holidays and handbags.

### My stand-out favourites from the range:

- 10% Natural Australian Tea Tree Oil & Vitamin E – for dealing with any spots or breakouts
- Tea Tree Hygienic Skin Wash – deep cleansing and gentle enough for face and body
- Tea Tree Hand & Body Lotion – super-hydrating - in summer I keep this in the fridge!

Oh, and did I mention the whole range is beautiful? Unwrapping a parcel from Metique is like an unexpected birthday: brown paper packaging, then layers of white tissue and blue silk ribbons available from :
