Metique 10% Blended Tea Tree Oil £7.14*

This little bottle of [Metique Tea Tree Oil](#) is a miracle worker when it comes to spots and breakouts. My skin is pretty clear on the whole but from time to time I get the odd breakout on my face or chest area. You know that horrible feeling of pressure underneath your skin when a spot is forming? The key with dealing with breakouts is to tackle them early! If I feel a spot forming underneath the skin, I zap it before it can emerge, by dabbing a small amount of tea tree oil to the area. I usually use it as part of my evening skincare routine so that it can work its magic overnight. This works better for me than any other blemish remedy I have tried and best of all it is a natural product.

METIQUE®

METIQUE® - the Specialists in Tea Tree Oil Products

So why is tea tree oil so good for your skin?

- It is a natural antiseptic which can cure bacterial and fungal infections
- A natural germicide which can help prevent and treat infection
- Works well on oily skin
- Suitable for sensitive skin without irritation
- A natural anti-inflammatory

10% Blended Tea Tree Oil

The Metique Tea Tree Oil is a blended oil with the added benefits of vitamin E, vitamin C, aloe vera and grape seed procyanidins. So you can use it straight onto your skin without diluting it. I have also been using this product on my blackhead prone areas and I have found that it helps to keep them at bay. Tea tree oil is a great little weapon that you can use on a multitude of skin problems - not just breakouts. You can use it to treat insect bites, stings, scratches, blemishes and grazes as a natural healing aid -- a wonderful all-rounder product which is handy to have at hand. Next time I get a nasty horse fly bite I am hoping that this will help soothe it -- without my leg becoming twice its original size!

You can purchase [Metique Tea Tree Oil](#) for £7.14 for 25ml online.
