

Male & Female Waxing

Metique Waxing Essentials

Waxing is becoming the norm for both male and female clients. This includes normal routine hair removal and for more intimate areas of the body.

The time has never been more important for good hygiene practice in both the Female Beauty Salon or Male Salon where you are offering aftercare and advice to your client when they return home. Aftercare should and needs to be high on the agenda for both salon and client which is where we can help.

At Metique teatree oil products hygiene is a middle name we offer a niche product range including pure and blended teatree oil, a choice of two skin washes one without sulphates and two teatree oil lotions. Our Hand & Body lotion has 1% tea tree and our After Wax Lotion has 5% tea tree. As it says on the bottle the #afterwax lotion is specifically for use after hair removal / waxing, formulated to provide an immediate cooling and soothing effect while nourishing and rehydrating the skin. Our Afterwax lotion will help prevent problems such as ingrown hairs, infection, dryness and irritation sometimes caused by hair removal.

METIQUE®
