Metique Tea Tree Oil Hygienic Skin Wash
by Aly Hazlewood
March 22, 2011

www.thetruthaboutbeauty.co.uk

Tea Tree Oil is one of nature's many gifts to us. It has been used by the Aborigines for centuries and has powerful natural antibacterial, antifungal, antiviral and antiseptic properties. It can be used safely on children as well as adults, although it is worth noting that it is toxic when taken internally, so never add it to food or drinks. Metique Tea Tree Oil Hygienic Skin Wash is a no nonsense, no frills hygiene wash that smells strongly of Tea Tree, not unpleasant by any means, but pretty powerful nonetheless. It cleans gently and effectively, without the stripped feeling that many antibacterial hand washes leave you with. I keep a bottle by the kitchen sink to ensure hands are always thoroughly clean before preparing food. Metique products are clinically proven, paraben free and are formulated with natural Vitamin E which helps ensure the tea tree oil stay active – promoting optimal skin hygiene. Available from
