

I have been using the METIQUE hand and body lotion... as I am a gardening freak my hands are usually a dried up mess but this lotion is amazing, it absorbs very quickly and has a lovely light texture. What I love is the smell...it cries out antiseptic, and you can feel it nourishing.

'The Hand & Body Lotion has aloe vera and vitamin A & E so is a great treatment for eczema sufferers in particular, as the level of tea tree oil helps calm inflamed, irritated skin; a side effect of this common skin condition. You can also apply to bites and stings to soothe and calm the irritation'.

I don't have too many problems with dodgy skin but I have been using Skin Wash, again after a spell in the garden I want something that will clean and kill any bacteria. This is a Sulphate free (non-foaming) skin wash and is formulated with Vitamin E and 5% Tea Tree Oil. It doesn't dry the skin out like some meddler type special skin preps can.. this has proved useful for bites and blemishes after taking the dog for walkies in the long grass....but it is ideal for everyone including teenagers, acne sufferers and those with sensitive skin or prone to blemishes.

I am a massive fan of essential oils, I use aromatherapy a lot for the family and friends, one of my 'must have's ' in the first aid box is Tea Tree Oil.

I have a bottle in my bag, car, kitchen and garage... yes I am a little obsessive! but it is the magic oil for me, love the smell...clean and fresh and of course its healing properties.... so imagine my delight when I came across METIQUE, TEA TREE OILS WITH A DIFFERENCE.

They have a range of products all formulated with natural vitamin E which keeps the product stable and that not all Tea Tree Oil products are the same.

METIQUE® essentials are available online at
www.teatreeoilproducts.co.uk or www.victoriahealth.com

The Skin Wash has also been used in clinical trials to combat MRSA on the skin so a must if visiting or undergoing treatment in a hospital. Exceeds European legislation for a hand wash method BSEN1276, BSEN12054 & BSEN1499. I CHEATED AND LOOKED THAT BIT UP AND I AM SO IMPRESSED...

with Ecoli scares we need all the help we can get.... I found the Metique Hygienic Cleanser, perfect for on the plane when off on you summer hols.. this no water leave on hand sanitizer is formulated with Vitamin E and 3% Tea Tree Oil and should keep the bugs at bay and kill bacteria without drying the skin. The perfect product when you're on the move or when you just can't get to water. Exceeds European legislation for a hand wash method BSEN1276 & 12054 (again I looked that bit up!)

My handbag companion is the little bottle Metique Hygienic Cleanser unique (water soluble) 10% Blend of essential Tea Tree Oil, formulated with vitamin C, E and aloe vera, gives fast relief from uncomfortable 'killer heel' blisters, bites, scratches and stings. The range of products are not expensive, skin wash is £10.20, hand and body lotion £10.71 and the hygienic cleanser is (£4.99) – 250ml (£10.20) 100ml

full details are on the METIQUE web site,
