

Natural Vitamin E – An essential ingredient in Tea Tree Oil Skin Care Products

Benefits of Topical Application

- Assist with wound healing
- Anti inflammatory properties
- Protect skin cells from UV damage
- Protects skin cells from environmental pollutants

Studies have shown that natural Vitamin E is a powerful antioxidant and that it helps to protect skin cells from damage caused by an excess of free radicals. Vitamin E helps promote healthy skin and protects the skin against UV rays which can cause premature aging. Free radicals are produced by many factors including cigarette smoke, sunlight, pollution and chemical reactions in the body.

Antioxidant – Vitamin E is vital in protecting skin cells from ultra violet light, pollution, drugs, and other elements that produce cell damaging free radicals.

Anti-Aging Benefits of Vitamin E – All Metique Tea Tree Oil skincare products are formulated with natural Vitamin E (Tocopheryl Acetate) helping keep the skin looking younger by reducing the appearance of fine lines and wrinkles. Free radicals are believed to play an important role in skin aging and therefore the antioxidant activity plays an important role. All the Metique Tea Tree Oil skin care products can be used from head to toe by the whole family promoting healthy skin.

Sun Burn Treatment - Studies have shown Hand and Body lotions formulated with natural Vitamin E helps protect skin cells from UV damage and treating sunburns.

Treatment of Skin Conditions - Vitamin E can aid in the treatment of various skin diseases and skin conditions. Topical applications such as those used to treat eczema, Psoriasis, dry, irritated, inflamed and cracked skin.
