

Metique Waxing Essentials

Metique Australian tea tree oil products offer you the perfect Waxing Essentials, formulated with natural vitamin E and paraben free.

Metique Tea Tree Oil is a natural antimicrobial ingredient that kills bacteria without disrupting the resident flora on the skin.

Pre Wax Cleanser Clinically proven and used in clinical trials this 3% Australian tea tree oil cleanser has been extensively researched . Ideal product to cleanse and sanitise the skin prior to treatments. No water, leave on.

Tea Tree Oil Crème Wax The Original Tea Tree Wax made for us by the manufacturer of the very first Tea Tree Oil Crème wax on the market. This proven Crème wax with the antiseptic qualities of Australian Tea Tree Oil for hygiene, less trauma and after shock. Once liquid , when applied , will glide onto the area in the appearance of watered down milk, adhering to the hair not the skin, offering a more comfortable and less traumatic experience and treatment to your client.

After Wax Lotion Apply this soothing Tea Tree Oil 5% lotion immediately after waxing to effectively reduce redness and inflammation after hair removal. Metique lotion will provide an immediate soothing and cooling effect while nourishing the skin and will help prevent ingrown hairs, dryness and irritation sometimes caused by hair removal.
